

FOR IMMEDIATE RELEASE

## Radiology Partners Secures \$695 Million in Funding; Closes Southwest Diagnostic Imaging Transaction

El Segundo, CA (December 12, 2017) – [Radiology Partners](#), (RP), the largest physician-owned and physician-led radiology practice in the United States, today announced it has closed its [previously-announced](#) partnership with Southwest Diagnostic Imaging (SDI) and has secured a \$695 million credit facility, lead arranged by Golub Capital. Proceeds of the financing are being used to close the SDI transaction, refinance existing debt and support future growth of the practice.

This funding, in addition to a \$200 million growth equity funding round [announced](#) earlier this year, marks nearly \$1 billion in capital secured by RP in 2017 alone.

“With the final closing of the SDI partnership, we are excited to officially welcome these talented physicians to our practice. Our partnership has extraordinary potential,” said Rich Whitney, Radiology Partners’ Chairman and CEO. “We are also pleased to continue our relationship with Golub Capital. The facility they have arranged includes significant unused committed capital, which will allow us to confidently execute our growth strategy.”

This latest announcement comes during a time of significant growth for the RP, including the entry into three new states, continued growth in Texas and Illinois and an affiliation with Baylor College of Medicine.

### About Radiology Partners

Radiology Partners, the largest physician-led and physician-owned radiology practice in the U.S., is a leading hospital-based practice serving approximately 450 hospitals and other healthcare facilities in 13 states. As a physician-led practice our mission is to transform radiology by innovating across clinical value, service and economics, while elevating the role of radiology and radiologists in healthcare. Using a proven healthcare services model, Radiology Partners provides consistent, high-quality care to patients, while delivering enhanced value to the hospitals, clinics, imaging centers, and referring physicians we serve.
